SUMMARY

Enthusiastic Cyber Security enthusiast dedicated to enhancing organizational security in digital environments seeking opportunities to apply expertise and drive impactful solutions.

EDUCATION

Technical and Vocational Training Corporation

Dec 2022 – Dec 2024

Bachelor of Cyber Security, Second Class Honors, GPA: 4.73/5

AL Qassim University

Sep 2019 – Jan 2022

Diploma of Cyber Security, Second Class Honors, GPA: 4.54/5

EXPERIENCE

Applications support specialist | Arabian Mills, Saudi Arabia

Jul 2025 – Present

As an Application Support Specialist, I provide technical and functional support for SAP SuccessFactors (HCM) and SAP Material Management (MM) modules. My role involves troubleshooting SAP-related issues such as login problems, transaction errors, and data inconsistencies. I work closely with the HR team to resolve system-related concerns and improve workflows. Additionally, I conduct user training on SAP features and best practices, while maintaining documentation of common issues and solutions to support ongoing efficiency.

Information Technology | Abdullah Abdulrahman Al-Hathloul Company, Saudi Arabia

Dec 2021 – Dec 2024

During my tenure at Abdullah Abdulrahman Al-Hathloul Company, I specialized in IT support, overseeing software and OS updates, hardware setup, and technical issue resolution. I also trained employees on internal systems and ensured the implementation of security updates to maintain system integrity.

PROFESSIONAL CERTIFICATIONS

eLearn Security Junior Penetration Tester

Jan 2025

Solidifying proficiency in essential penetration testing techniques. Ready to apply advanced skills in identifying and mitigating vulnerabilities to fortify digital assets.

CompTIA Security+ Certification

Dec 2024

Highlighting expertise in cybersecurity principles and best practices. Equipped with comprehensive knowledge to safeguard systems and data against emerging threats.

INE Certified Cloud Associate

Feb 2025

Adept in designing and implementing scalable cloud solutions. Proficient in leveraging cloud services to drive efficiency and innovation in IT environments.

COURSES

analyzing cybersecurity incident response

STC (7 Hours) 03/2025

Cybersecurity incident response experience taught me how to quickly analyze incidents, assess scope and impact, and make quick decisions to address threats.

Security Operations

ISC2 (8 Hours) 01/2025

Learned fundamental concepts of security operations, incident response, and threat management.

Introduction to Cybersecurity Essentials

IBM (12Hours) 01/2025

Gained basic knowledge of cybersecurity principles, threats, and protective measures.

PROJECTS

CYSRUX 11/2024

Developed a network scanning tool that identifies vulnerabilities in connected devices and provides mitigation recommendations. The system runs Raspberry Pi hardware for portable deployment in various network environments.

SKILLS

Fast Typist

Skilled in Touch typing, maintaining an average speed of 130 words per minute.

Documentation

Proficient in meticulous documentation, adept at utilizing tools like Notion for streamlined organization and clarity.

Network Security Monitoring

Skilled in Monitored network traffic for suspicious activity and potential security threats.
